

Respect for our Customers
Responsiveness to their needs
Responsibility for our Actions

WHO WE ARE

Trilogy is Wisconsin's most comprehensive group health provider network covering over 90% of the state's population, which includes contracts with most of the states' major hospital systems and medical groups.

We pride ourselves on being a local, innovative company able to tailor health care solutions to an employers distinct set of needs. This partnership approach allows for flexibility and ease of integration. Trilogy provides personalized solutions through our provider agreements and selected health care partners that add value, optimize efficiency and significantly reduce an employers' health care spend.
