

Your Direct Primary Care Network

Unlike on-site/near site clinics or direct contractual relationships with one Direct Primary Care (DPC) clinic, Trilogy Direct offers employers a network of DPC providers including virtual options, giving employees more choices and flexibility in selecting a PCP that is right for them and their family. Our unique model helps Wisconsin employers enhance their employee benefits, supporting both a growing and geographically dispersed workforce while managing expenses effectively.

Benefits of DPC

Timely & Convenient Healthcare

- Same day or next-day access
- Little to no wait time
- Direct communication with provider
- Personalized and unhurried appointment times

Stronger Doctor-Patient Relationship

- Unrestrictive access to PCP leads to:
 - more comprehensive & continuous care
 - better health outcomes
 - patient satisfaction

Cost Savings

- Reduction in the incidence of chronic diseases
- Reduction in claims including:
 - ER, PHARM, diagnostic & lab
- Reduced absenteeism

Access-to-Active Pricing

Employers benefit from our simple access-to-active pricing, where employers only pay full membership price for individuals who have engaged with a DPC in the network, aligning costs with utilization. This approach ensures predictable and manageable healthcare costs.
