

# EXTERNAL AUDIT SUPPORT SOLUTIONS

You've invested a lot to build it right.  
Let's make sure it shows.

Regulatory audits are a frequent, critical aspect of Medicare, Medicaid, and other government sponsored programs. Whether it's the State, CMS, OIG or your EQRO, it seems organizations are always gearing up for another review.

Our consulting team has decades of experience with the coordination, preparation and participation in regulatory audits and subsequent follow up. We offer a full range of services to support and/or complement your current capabilities.

## CUSTOMIZABLE EXTERNAL AUDIT SUPPORT SOLUTIONS

- Hands-on assistance with audit coordination and management; collecting and preparing requested information; reviewing audit files to identify potential vulnerabilities; ensuring alignment of process, procedure and practice; assessing staff readiness
- Response and remediation plans based on formal and informal audit recommendations, findings and other feedback; develop and track corrective action plan progress to ensure appropriate and timely resolution
- Integration of updated process checks and internal assessments to confirm lasting change and avoid repeat findings
