

MEDICAID PLAN DEVELOPMENT SOLUTIONS

Launching a new Medicaid plan can be daunting.
Let us help illuminate your path.

As the industry saying goes, "If you've seen one Medicaid plan, you've seen one Medicaid plan!". The combination of national framework and state administration creates a uniquely challenging opportunity for health plans. Our team has solid experience in many Medicaid markets throughout the country, and are uniquely positioned to help you from early development through plan launch and beyond.

CUSTOMIZABLE MEDICAID PLAN DEVELOPMENT SOLUTIONS

Full-spectrum program development and implementation assistance and consultation, including:

- Market analysis and sales strategy
- Value-based design – metrics, monitoring, and reporting to establish and substantiate ROI
- Provider network adequacy and development strategy
- Compliance, operations and process engineering
- Identify functional structure (insource vs. outsource) and assist with vendor screening/selection process
- Clinical management programs design and all aspects of care delivery
- Program staffing and training considerations
- Establish HIPAA and privacy controls
- Readiness review
- Guide implementation, execution and monitor ongoing program delivery
- Post-implementation review
